This Structure's Pate in the Hands of Hamlin Voters!

Elementary School Building that will be built in North Hamlin if citizens of the city approve the Here is a preview of the propose 'ection. This is the architect's drawing of a "plain vanilla" building that would replace the issuance of the \$125,000 bonds in Sau. ancient bat-infested edifice that has withstood useage of Hamlin children since 1906. A plan has been worked out under which the school tax rate can catually be reduced and all bond retirement and maintennce expenses cared for. Don't forget to go to the polls Saturday and do your part toward cinching this building for your children and those of the coming years. Voting will be done at the Hamlin High School building.

Lions and Rotarians **Back Hospital Sales**

CIVIC GROUPS TO CONTEST FOR MEMBERSHIP LEAD-BANK **DEPOSITS STILL CLIMB**

Last week the total deposits for the Hamlin Memorial Hospital Association were \$5,005 and this week, the total has gone well over the \$7,000 mark. Not so bad for February! And still there is one more week of the month left for additional memberships to come in. They are being left every day at the F. & M. National Bank. Blanks with official checks attached may be had at the Bank, Bryant-Link Company, Terrell Food Store, Wilcox Produce House, F. B. Moore Grain, D. M. White's office, and both the Rotary and Lions Clubs have gone into a campaign to "button-hole" fellows who have not signed up.

The hospital directors met Sunday afternoon and authorized a partial payment plan for membership, provided it starts at \$10.00 or more and is completed before a contract for the first building unit is let. However, since there is no risk, why not put up the \$50.00 at once and save work and trouble.

Directors of the hospital association issued the following statement for The Herald:

People are sold on this hospital plan for this area of communities stretching out miles and miles in all directions from Hamlin. This is one enterprise that is unlimited, and boundaries are not known.

This week we have memberships from Plainview, Texas; Midland, Texas; Cushing, Oklahoma; and Stamford, Texas.

Some people, however, say, "We are for the hospital and will come in later," which means they want the other fellow to be brave enough to put up his money while they wait and see. There are easily 2,000 families who should be getting doctors' care and hospitalization in Hamlin, nearer their homes, but who are compelled to go elsewhere and take what is available and pay what is asked. If you like that don't try to remedy it.

See HOSPITAL-Page Six

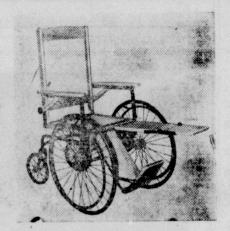

Goal About Reached in **Boy-Girl Scout Drive**

City-wide campaign to raise funds for Hamlin Boy Scouts and Hamlin Camp Fire Girls is scheduled to close this week-end, with every indication that the town will make its \$1,200

So declare Lions Club officials through Art Carmichael, club president, who say only a small part of the town remains to be worked. Through Wednesday almost \$1,000 had been raised in the campaign.

Citizens of the town who might have been missed in the Boy Scout and Camp Fire Girls drive are urg- has seen plenty of action in the Paced to mail their donations, at once, to Hamlin Lions Club.

LEGION BUYS THEM

Shown here is one of the models of wheel chairs which will be available to the citizens of Hamlin area and Jones County free of charge under the current community service project, Keefer Patterson Post No. 146, of Hamlin, states.

WHEEL CHAIRS FOR **USE BY NEEEDY TO BE LEGION PROJECT**

can Legion Post No. 146, it was announced this week, in cooperation with the American Legion, will place wheel chairs in Hamlin.

Such chairs will be so located that all residents, both town and rural areas, will be quickly and conveni-

So state oe Culbertson, post commander, and Fred Smith, adjutant. Chair and crutches for persons who need them will be located at

the City Hall. Legion officials say the hospital equipment is for the free temporary use of residents of Jones Countyexcept for the cost of transporta-

Wheel chairs will also be placed at Anson, under the auspices of the Anson-Jones Post No. 72.

Legion officials are not making a P. M. request for donations, as neither the representatives nor the American Legion organization will accept donations of any kind.

The needed hospital equipment, it s pointed out, is paid for by commissions derived from your purchase of Capper's Farmer, Southern Agriculturist and Breeder's Gazette.

Extra hospital equipment, like chairs and crutches, is often needed in this trade zone, and the local American Legion post intends to make such equipment available at

MARCH 1 SHAPES

M. B. TEMPLETON, FORMER VA TEACHER HERE, TO JUDGE DISPLAY NEXT FRIDAY

M. B. Templeton, Nolan County agricultural agent, will judge Hamlin's FFA and 4-H Club Fat Livestock Show here March 1, it was announced this week.

Templeton is a Texas A & M graduate and while in college was one of the high ranking members of the A & M livestock judging team.

Templeton, it will be remembered, has taught vocational agricul-

cal show of calves, pigs and lambs from FFA and 4-H Club boys of Jones County and from the Hamlin 200 ATTEND FIRST trade sector of Fisher County.

Total premiums will be \$200, contributed by Hamlin and Anson Chambers of Commerce.

Members are supervised by Stanley Jones, county agent; Lee C. Coffee, Fisher County agent; Roe Curtis, Trent VA instructor, and T. C. Blankinship, Hamlin VA teacher.

In the March 1 exposition here will be at least 35 fat beef calves, 32 fat hogs, 15 fat lambs, and about 15 registered Jersey heifers.

All entries, it was announced this Hamlin's Keefer Patterson Ameri- week, must be on the show grounds of Hamlin City Park by 9:00 A. M., Friday, March 1. Judging will begin at 10:00 A. M.

> J. S. Inzer is general superintendent of the show. Department chiefs were carried in last week's Hamlin

> In the fat beef steer class, total cash prizes will be \$75.

> In Department B, fat hogs, prize lists will total \$54.

> In Department C, fat lambs, cash awards will amount to \$30.

> In Department D, registered Jersey heifers, cash awards will total

> Order of judging March 1 follows: Fat hogs, 10:00 A. M.; fat lambs, 11:30 A. M.; Jersey heifers, 1:30 P. M.; and fat beef steers, 2:00

> Prize list in all show divisions will be carried in next week's Herald.

POST-WAR HAMLIN C. OF C. GATHERING

Community spirit was at a new level Tuesday evening when the first full size membership banquet since 1942 was staged by the Hamlin Chamber of Commerce in the basement of the First Methodist Church. About 200 people were present for

Under the toastmastering of Haskell W. Carter, retiring president of the civic organization, a well rounded program of entertainment was enjoyed. Ladies of the Methodist Church Woman's Society of Christian Service served the dinner.

New president of the Chamber of commerce for the coming year, O. D. Roland, was presented by Carter, following introduction of directors of the organization.

New directors are B. M. Brundage, Clyde Angel, Claude Lancaster, Fred Smith and F. B. Moore. Hold-over directors are R. H. McCurdy, I. R. Witt, Frank Waggoner, John D. Ferguson, Tate May and J. B. Terrell.

Fun for the evening was furnished by Cecil M. Hunter of Amarillo, who gave the crowd 20 minutes of merry mix-up. He had been booked as Professor Algonquin Winterbottom.

Former Rotary district governor Cal Farley of Amarillo, operator of Boys' Ranch for underprivileged boys near Amarillo, spoke on the operation of the institution that is doing so much for delinquent youth of the Southwest. He was presened by Tate May.

The banquet opened with singing Engineers, Dean and Gean Witt, by the group fo "The More We Get twins and sons of Mr. and Mrs. I. R. Together" and "America, the Beau-Witt of Hamlin, arrived here Mon- tiful," led by Lester Morton, who day with honorable service discharg- also sang two solos, accompanied by Mrs. Ted Russell at the piano.

BALLOTING TO TAKE PLACE AT HIGH SCHOOL BUILDING ALL DAY SATURDAY

Saturday will be a red letter day in Hamlin history, for it marks the time for the town's \$125,000 grammar school bond election.

Through Wednesday there was apparently no opposition to the bond issue, which means that a thumping

good vote should be recorded. Ballots in the school bond election will be cast at Hamlin High School, and voting hours will be from 8:00 a. m. to 7:00 p. m. Saturday.

The new bond issue will require ro additional raise in taxation, Hamlin voters learned last week.

The new bond issue, if approved, would, in fact, reduce the town's end on estimated production of 50 tax rate from present level of \$1.50 barrels per day. The well is 330 feet on the \$100 property valuation to \$1.25 on the \$100 property valuation, by refunding of old bonds and extending payments over a long

period of years. As proposed in the bond issue, 50 cents of present taxes collected would go for maintenance and 75 cents for bond retirement purposes.

Since the old school structure was erected in 1906, new plans call for constructing the building east of the present structure and using all old materials from the ancient building new standing.

Citizens are considerably interested in the proposal to use the old building site for a school playground.

Present building plans call for laying of the foundation for the new building and foundation by the time the current school session is over, then starting actual erection of the

Baptist Young People Enjoy Annual Banquet

Approximately 125 Baptist young people and their guests enjoyed the annual sweetheart banquet given in the First Baptist Church last Thursday evening at 8:00 o'clock.

A delightful menu of delicious foods of Valentine motif and menu name was served to the group.

Joe Clements, toastmaster, introduced the program for the evening During the meal Mrs. L. B. Baker rendered several piano numbers.

Frankie Sue Madden gave a reading, "Seventeen," and as an encore, "Jennie Kissed Me." Elaine Jones Kite favored the group with two vocal solos. "Some Sunday Morning" and "Let It Snow, Let It Snow, Let It Snow."

Guest speaker of the evening was Warren C. Hultgren, Hardin-Simmons University student.

To conclude the program, the entire group sang a chorus of "Love's Old Sweet Song."

A man may fall into a thousand perplexities, but if his heart be upright and his intelligence unclouded, he will issue from them all without dishonor.-Robert L. Stevenson.

PAY CASH AND PAY LESS! Hamlin, Texas

Telephone 51

WHAT WOULD IT BEVALUED AT?

Certainly no monetary value could be placed on the value of a close-at-hand hospital when you or your family needed immediate skilled hospital care—especially when a loved one's life is involved—but just stop and consider the savings in time, travel expenses, hotel bills, meals away from home. Even at regular hospital rates, you could more than save the cost of a membership in Hamlin Memorial Hospital in just one trip to a distant hospital! But with a membership in your very own hospital, you may secure hospitalization at greatly reduced rates. Your neighbors are joining—have you? If not, turn in your membership this week, and let's get the institution going up. BE HOSPITAL-SURE!

The Hospital Plan

THE BUILDING AND EQUIPMENT

Each family may pay a \$50.00 fee for a Life Time Membership in the Hamlin Memorial Hospital Association. From this source the hospital will be built and equipped. All member families in the Hospital Association will enjoy many extra advantages in costs at the Hospital, including unlimited attention of doctors on the staff, medical supplies, nursing care and room costs, all averaging in most cases about one-half what is usually paid in private hospitals. Non-member persons would be admitted with charges as in private hospitals.

THE DOCTORS' SERVICE

To receive the fullest benefits the member families will be privileged to provide for doctors' attention in the Hospital by paying a small annual fee at the beginning of each fiscal year. (This phase will not be called for until the Hospital is opened for service). The medical fees used in other hospitals of this nature are as follows: One person in family, \$12; two, \$18; three, \$22; four, \$25. Any dependent would be about \$6. These reasonable amounts pay for all doctors may need to do for each and all members of the family for one full year. This is a great saving and advantage in many ways to members. Non-member persons would be served as in any private hospital, at the customary prices.

HOSPITAL CONTROLLED BY DIRECTORS

The charter for the Hamlin Memorial Hospital has named in it nine directors to serve the first year of the Association, after which the membership, in their annual meeting, will elect them (three each year). The directors represent the people in all matters, as to funds, property and making policies for operating the Hospital.

The directors will secure the services of a competent medical doctor who will be chief of staff. He will be privileged to recommend additional doctors and such medical help as he deems best to give full and complete service.

NO RISK TO RUN

The Hospital is to be built on a CASH basis and operated on a cash basis, unless it be in an unusual emergency case.

Subscribe Your Family's Membership in the Hamlin Memorial Hospital Today...

He then jet propulsion is to a plane-it speeds it up and of course, jet pro-These schools for food handlers Naturally, I didn't want to have the pulsion is a new thing. Oh, yeah, for some reason, my pal stayed clear of the marines the rest of the trip.

> "A little ways out of Needles, California, just as we came into Arizona, one guy hollered, 'My God, look at that!' We all looked out the window. All we saw was a blinding refecting the sun. It was airplanes -fightrs, bombers, transports, etc., all makes and models. It looked like the whole air force out there. For about five miles all we saw was airplanes. It was just like a grave yard -the planes being their own cross-

> es. They were being decommissioned; many were already torn down. But even these were still yelling their defiance to the powers of dictatorship. It was a very sad sight to see all the planes stripped of their wings, motors, wheels, etc. Yet right there we saw why Germany and Japan were licked.

"By this time we began to get tired of the continuous riding. We came through Arizona, Mexico, Kan-Colorado and into Missouri. There we crossed the families Mississispipi River. It was a very beautiful sight. Water was flowing in the center and was frozen along the banks. Then we came into Illinois. We stayed all night in Chicago. We saw the town, and contrary to the saying, people were and are quite friendly up here in the North. Then the next morning we boarded the train, came through part of Iowa, Pennsylvania, and into New York. We came into Buffalo; then we boarded a bus and came on to Geneva and into Sampson. As you noticed I skipped more than I put down. It would take up all the paper. So hoping this will make the paper, and I will write again and tell about New York and the work going on at the lospital. Pardon all the mistakes, as I haven't much time and must write fast and furiously. Well, give all the people my best regards.

"P. S. to trip: When we left, we let out a holler that was 'heard

around the world.' We were getting away from California. By the time we got to Colorado, it was down to a college roar. In Missouri, it was a whisper. In Illinois, it was nothing. By the time we got to Sampson it was a holler again, but this time to go back, because, brother, when you get used to 80 and 90 degrees above and then go where it's zero and 15 degrets below, it is cold! It doesn't make any difference whether it is damp, dry or wet climate, 15 degrees below is cold in any language-especially mine. If I ever get out of the North, the only way I'll ever get here again is by going too far south. Well, gotta end this.

"P. S. Have received a few copies of The Herald, and believe me, really enjoyed them. It is really good to get to read a home town paper.

HAMLIN HOSPITAL

(concluded from page one)

If you want to better your family health welfare, this is the best opportunity you will ever have.

At the rate we are going now in accumulating funds for a building, it will be about six months before we achieve the goal of \$50,000.

If you come on and help, it should not take longer than April 1 or May 1 and then a building will be gotten underway. A substantial modern hospital can be opened in Hamlin before the end of 1946 if the people stop "waiting" and pitch in to help it get going. The directors cannot build on doubters, hesitators, and obstructionists. What they want are families who have faith in what other communities are doing so well, faith in honest effort, and attainable possibilities.

Here Are New Members.

JONES COUNTY TO SHARE IN FUND TO **RETIRE BOND LOAD**

Jones County, as one of 16 Central West Texas counties, will receive \$486,305 in state aid toward retirement of county road bonds during life of the present debts, it was announced this week.

The Board of County and District Road Indebtedness at Austin says, in addition, that the state will pay its share of the interest.

A proposed state constitutional amendment, to be submitted to voters in November, freezing road users' taxes to road construction and maintenance, would not disturb the bonds now receiving state aid, the board declares.

All road bonds, it is understood, will continue to draw their present rate until retirement.

The amendment would provide that, subject to legislative appropriation, allocation and direction, all net revenues derived from taxesexcept gross production and ad valorem taxes—levied on motor fuels and lubricants and motor vehicle registration fees shail be used for the sole purpose of acquiring rights-

of-way for and constructing public readways.

Amendment provides for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945.

One-fourth of the net revenue from the motor fuel tax shall be allocated to the available school fund.

It is assured, however, that each county shall never derive less revenue from motor registration fees the maximum amounts and percentages allowed to the county under the laws in effect January 1, 1945.

EITY DRUG STORE "The Rexall Store"

"Think on these things"

"IT MAKES NO DIFFERENCE!"

"It really does not make any difference what a person believes; it makes no difference what religion an individual professes, if he lives up to it. I do not believe that one fellow should criticize the of faith of another. All beliefs are equally good, and who is going to set himself up as judge of another?"

The sentiment expressed above is the classic statement of indifferentism in religion. Very often it is the greeting that a preacher receives when he calls at a home. It is the rather proud explanation of the reason why this particular individual stands for nothing in religion.

To say that all faiths are equally true is, perhaps, to believe that they are all equally false.

IS INDIFFERENCE TO BELIEF THE PROPER ATTITUDE?

Logically, the indifferentist cannot consider this question. If he answers either "Yes" or "No," he must surrender his position. "It makes no difference what a man believes." Does it make any difference whether I believe this statement or not? The indifferentist must paradoxically maintain that it does!

Does it make any difference in political affairs whether men believe in democracy or totalitarianism? Does it make any difference in economic affairs whether we believe in government spending, in a balance of trade, in paying the national debt, etc.? Does it make any difference in social affairs whether races are given equal rights or whether men may be sold as chattel? Does it matter in scientific circles what men do with atomic energy?

Does it make any difference which way a man thinks is the right way out of a burning building, a sinking ship, a falling plane or a crashing automobile? Does it make any difference whether I believe that I am a mere brother of the brute or a son of God? Whether my will is bound or free? Whether there is a life beyond the grave or that death brings eternal night? Whether my desires are to be given free rein or to be controlled? Does it make any difference what the husband believes about his wife? (Remember Othello). Does it matter what one member of the family believes about another?

Next week we shall discuss: "WHY INDIFFERENTISM SHOULD BE CONDEMNED."

Attend the Church of Christ. Bring the Whole Family!

HERALD Want Ads Get Results.

The telephone company reports to those waiting for service

The telephone company is anxious to bring you the service you've ordered.

Telephone factories are working hard at the tremendous task of catching up with America's backed-up demand for telephone service. (More than 2,000,000 people are waiting throughout the nation.)

In December factories were making telephone instruments at the rate of 230,000 a month. By January 1, in the five states served by this company, about 60,000 of these newly manufactured instruments already had been installed.

But making and installing telephone instruments is only a part of the job of providing service for everybody. We are planning, making, and installing the great volume of switchboards, dial equipment, cable, wire-and even buildings-necessary to make those telephones work.

By the year's end, enough central office equipment to connect 40,000 additional telephones had been made and installed in this company's territory. This is the time-taking part of the job—the apparatus is complicated to make and complicated to install. Equipment for 10,000 telephones must be wired to handle nearly 50 million possible telephone connections. We're pushing this complex job as fast as we can; it will take time, but we're doing our best to take as little time as possible.

Miles and miles of cable to connect telephones with central offices have been put in since the end of the war; and in the last few weeks, by reason of increased supplies of men and material, the rate of installation has doubled.

We have made progress-and every month during the coming year our progress will be still more rapid. Everyone will get service in his proper turn. Your service once ordered, you can be sure that your application is before us; and as soon as the equipment is available to connect your telephone, we will notify you and arrange details for providing your service.

"It's wonderful how they run that the shows back there the shows back the shows b tially as follows, to-wit:

RESOLUTION

Calling an election on the proposition of the issuance of one hundred twenty-five thousand (\$125,000.00) dollars school house bonds and the levy of a

tax in payment thereof.
Whereas, there has been presented be held on the proposition of the issu-ance of one hundred twenty-five thousand (\$125,000.00) dollars school house bonds, for the purpose of the purchase, construction, repair or equip-ment of public free school buildings within said District and the purchase of the necessary sites therefor and of the necessary sites therefor, and the levy of a tax in payment thereof;

Whereas, it appears the satisfaction of the Board of Trustees and the Board of Trustees officially finds that resident, qualified electors who own taxable property in the School District, and who have duly rendered the same for taxation; and Whereas, it appears that the petition conforms to the law in all respects;

whereas, the indebtedness of Hamlin Independent School District is in excess of 6 per cent of the assessed valuation of said District; and

Whereas, there is located within said District a school building, which has been condemned by the Board of Trus-tees of this District upon the recom.

mendation of a certified licensed architect; and Whereas, Chapter 203 passed by the Forty-Seventh Legislature is applica-

ble to this District; and
Whereas, it is imperative that a
new school building be constructed for
use instead of the building which has

Therefore, be it resolved by the Board of Trustees of Hamlin Inde-pendent School District:

-That an election be held in Hamlin Independent School District on the 23rd day of February, 1946, at which election, in accordance with said petition, the following proposition shall be submitted to the resident, qualified electors who own taxable property in the school district, and who have duly rendered the same for taxation for their action thereupon;

PROPOSITION

Shall the Board of Trustees of Ham-lin Independent School District be authorized to issue the bonds of said school District in the amount of \$125,000.00, to become due and payable serially as follows: \$1,000.00, 1947 to 1972, both inclusive; \$10,000.00, 1973 to 1974, both inclusive; \$11,000.00, 1975 to 1978, both inclusive; \$12,000.00, 1979; \$13,000.00, 1980; \$10,000.00, 1981; bearing interest at a rate not to exceed four (4%) per cent per annum, payable semi-annually, for the purpose of the purchase, construction, repair and equipment of public free school buildings within said District and the purchase of the necessary sites therefor, and whether there shall be annually levied and collected on all of the taxable preparty in said School District for ble property in said School District for the current year and annually there-after while said bonds or any of them are outstanding, at tax of seventy-five (75c) cents on the one hundred dollars valuation of taxable property, or so much thereof as will be sufficient to pay the current interest on said bonds and to pay the principal thereof as the same becomes due.

2.—The polling place of said election shall be at the High School Building within said Hamlin Independent School District, with the following election officers: J. D. Ferguson, presiding judge; Joe Culbertson, judge; Mrs. C. C. Prater, clerk; Mrs. J. B. Eakin, clerk.

3.—The ballots of said election shall have written or printed thereon the

following: For the issuance of bonds and the levying of the tax in payment thereof.
Against the issuance of bonds and

the levying of the tax in payment Each voter shall mark out with black ink or black pencil one of the above expressions, thus leaving the

other as indicating his vote on the proposition.

4.—None but legally qualified electors of this State and of the School District and who own taxable property in the School District and who have duly rendered the same for taxation shall be entitled to vote at said elec-

5.—That a copy of this resolution, signed by the president of the Board of Trustees and attested by the secretary of the Board of Trustees, shall serve as proper notice of said elec-

said notice shall be posted by the secretary at three public places within said School District, one of which shall be at the voting place in said district hereinabove designated, which posting shall be done at least 10 days prior to the date fixed for said election.

6.—Immediately after said election has been held the officers holding the same shall make return of the result

same shall make return of the result thereof to the Board of Trustees of said Hamlin Independent School Dis-trict and shall return the ballot box to the secretary of the said board for safekeeping.
7.—The manner of holding said elec.

7.—The manner of holding said election shall be governed by the provisions of Chapter 13 of Title 49, Revised Civil Statutes of Texas, 1925, including Article 2785, Revised Civil Statutes of Texas, 1925, and pertinent amendments thereto, including Chapter 476, Acts of the Second Called Session of the Forty-Fourth Legislature, and Chapter 203, passed at the Regular Session of the Forty-Seventh Legislature, and this board will furnish all necessary ballots and other election supplies requisite to said election.

Adopted and approved this the 8th day of February, 1946.—Holly Toler, President, Board of Trustees, Hamlin Independent School District.

Attest: A. Spencer, Secretary, Board of Trustees, Hamlin Independent School District

BILL BURNETT, Manager

State Department of Health Training Men For Sanitation Work

An official announcement from the State Committee for Approval of Educational and Training Institutions has been received by Dr. George W. Cox, state health officer, designating the Texas State Department of Health as an approved vocational training agency for veterans.

Hamlin World War II vets will be glad to learn training offered by the State Health Department will include sanitary engineering, entomology, technician, water and sewage plant operation and typhus control.

Veterans who meet the eligibility requirements under the G. I. Bill of Rights, ages 20 to 40, with at least a high school education and physically fit for field work, may apply for this training. Applicants should be men who desire to make sanitation or some other phase of public health activity a career or life work.

Applicants who have been accepted will receive such training allowances as is provided under the G. I. Bill of Rights: For instance, \$65 and survive. \$90 per month, depending on marital status, which amount may be supapplicant is taking his training.

HAMLIN, TEXAS

LUTHER F. BRYSON DIES SUDDENLY AT HOME OF FRIENDS

Luther F. Bryson passed away Thursday night, February 14, at 10:40 o'clock in the home of friends, Mr. and Mrs. Marvin Rankin. Mr. Bryson had retired for the night, apparently in the best of health.

He was a former resident of Hamlin, before going to Dayton, Texas, in the employ of General Crude Oil Company. Later he transferred to Wink, but because of his wife's health had moved back to Hamlin about a week before his death.

Luther F. Bryson was born in Cross Plains, Callahan County, Texas, January 15, 1900. He was 46 years and one month old.

He was married to Mrs. Anna Dea Reves Howard June 28, 1928, and to this union were born four children, Luther W., Nina Marie, Jimmie F. and Sammie H., all of whom

He is also survived by a stepdaughter, Mrs. G. F. Miers; his plemented by the city where the mother, Mrs. J. F. Bryson; three brothers, Joe and Clyde, of Cross Plains and Tommie of Houston; two this type of training, Hamlin and sisters, Mrs. Alta Rives of Abilene Jones County veterans are urged to and Mrs. Esther Westerman of Cross consult their local branch of the Plains; and five nieces and four

Services were held Saturday in the Hamlin First Baptist Church at 4:30 o'clock, with Minister Mardell Do not lay things too much to Lynch, pastor of the Hamlin Church heart. No one is really beaten un- of Christ, in charge. Interment was in East Cemetery under the direction of Barrow Funeral Home.

> Relatives and friends from out-oftown who attended funeral services were Charley Bryson, Aspermont; Jack Bryson, Oplin; Alice Bryson, Mrs. Della Browning, and and Mrs. Hattie Lacy, Cross Plains; Marie Bryson, Big Spring; Mrs. Sallie Mc-Williams, a sister of Mrs. Bryson, of Houston; B. J. Rives, San Saba; Mr. and Mrs. Sam Rives, Crane, Mr. and Mrs. Henry Rives, Abilene; Mr. and Mrs. B. M. Rives, Amarillo; Staff Sergeant and Mrs. Don Jurgen, Denver, Colorado; and Billie Rives, Houston.

Men Do Have It, Too!

At a dinner party one evening in London, American-born Lady Astor became annoyed when the men present embarked on a discussion of the vanity of women. "I think men are infinitely more vain than women," she contended compromisingly.

A burst of laughter greeted this remark, and Lady Astor flushed.

firmly. "If you'll look about you, gentleman, you will notice that the most inteligent man ir this room has the most ridiculous knot in his tie!"

She had no sooner made this charge than every man at the table reached for his tie. With a smile of triumph and a patronizing "See," Lady Astor resumed eating."

New Type of Cotton **Testing Machine Will** Prove of Great Value

A new type of cotton testing machine developed in the laboratory which may prove invaluable to the cotton industry, Hamlin area farmers area informed, has been anmounced at Texas Tech College, Lub- increase far beyond wartime levels bock.

New testing machine is being announced by Geo rge W. Pfeiffenberger, who is in charge of research work for the Chicopee Manufacturing Company, in the spinning laboratory of the textile department of Texas Technological College.

The new machine, it is explained, which will test cotton for fineness in 20 minutes whereas the process heretofore has required four hours, is inexpensive and can be operated by relatively inexperienced hands.

Pfeiffenberger said the governent had been interested in the machine for its own laboratories. The new process will be called the Texas Tech Cotton Testing Method. Texas Tech was selected out of 15 colleges by the Chicopee Manufacturing Company for research work because of the excellent equipment available and the cooperation of Tech College officials.

Farmers of West Texas have been promoted to death about growing longer staple cotton," Pfeiffenberger says. He is of the opinion that there is little use in the farmer grow-

VENEREAL DISEASE PROBLEM IN TEXAS ONE OF BIG WORRY

Strong warning to Hamlin area people that venereal diseases may during the next few years has reemphasized the need for immediate control action. High-lighting the state-wide control campaign is the observance throughout the State of National Social Hygiene Day on Wednesday, February 6.

Cooperation from every social level has led leaders in civic groups, social agencies, youth organizations, churches, parent-teacher associations, labor, management and health officials to participate in the observance of this day.

Interest in the campaign against syphilis and gonorrhea has risen to new heights during the past few years. .

Venereal disease control was an urgent and vital factor in fighting power and working ability. The observance of National Social Hygiene Day is part of a program including general education to arouse the interest and concern of communities in stamping out the venereal diseases which kill 100,000 Americans annually.

The national observance is sponsored each year by the American Social Hygiene Association, a voluntary health organization which works in close cooperation with the Army, Navy, U. S. Public Health Service, Office of Education and other units of the Federal Government, and with similar state and local agencies in promoting the control and prevention of venereal diseases.

Entered at the Post Office at Hamlin, Texas, for transmission through the mails as Second Class Matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of

GEARLESS CARS ARE ON THE WAY

If you think automobile engineering has fallen behind because of our war-time years, you will be very pleasantly surprised, because the dream of a truly gearless car, without transmission and differential, is already a proven reality.

A Ford engineer, for instance, Ray Russell, has built over 100 of the gearless vehicles, in which the engine's crankshaft is connected with pumps and oil under pressure drives all four wheels through individual hydraulic

Now that we have advanced so far in engineering that we can look forward to a vehicle without gearshift, transmission or differential, we hope the day is not far distant when such vehicles can be sealed at the factory and operated without benefit of fuel or oils of any kind. In other words, if we can utilize something of a perpetual motion machine, and have tires that never go flat, the automobile and pick-up will indeed prove an American luxury—and a joy to behold!

PROFIT IN COTTON WITH CEILINGS

Considerable agitation has been heard from government circles and reflected in the thinking and talking of cotton growers concerning proposed ceiling prices for raw cotton. Hamlin area producers are intensely interested in the outcome of present conferences in Washington on the subject.

Whether ceilings are invoked that would keep the price of raw cotton below a certain figure or not, the cotton producers of the country must put into practice methods of production of cotton at less cost in order to protect their market from foreign competition.

The cotton market of today is not measured by metes and bounds nor by old style transportation. The cotton producer must compete with the growers of Brazil, Central America, Egypt, China and other cotton producing countries.

The ingenuity of cotton farmers will find a practical way to produce cotton of higher quality at lower figures than was possible years ago. The ceiling price will not be a permanent bugaboo to the "heady" grower.

NEW SCHOOL URGENT FOR CHILDREN

It will be up to Hamlin people Saturday to mark up a record vote in the school district's \$125,000 bond election, purpose of which will be to secure sufficient funds to construct a brand new grammar school building, something worthy of the present and a monument of dedication to Hamlin's

Early this week there appeared no opposition to the Hamlin bond election, and since this is the case there is no reason why the issue should be defeated.

Teaching is the mother profession of the earth, and the school room, as the hand maiden of learning, forms the most fundamental of foundations for molding character and of deciding the destiny of Hamlin boys and girls.

Since the days of the little red school house and the rural one- and two-teacher schools are definitely over, we will have to grasp every opportunity afforded us in order that our children may be mentally equipped to face the world of tomorrow unafraid. Only through proper educational facilities can we build for a greater, richer and nobler life in this land of ours that has indeed been purchased with a price. Our heritage shall dead us to remain a world leader in education if each community and city will only cooperate on a 100 per cent basis.

WHAT CONTEMPORARIES ARE SAYING

PUMPKIN HEADS

If there is anything funnier than a Republican party platform, including the latest version so hastily buried amid such gales of laughter, it is a GOP nabob trying to be a man of the people and beating his breast for "moral principles."

It may be hard to believe, but you can take the Republicans' word for it-if you want to-that the American people are sadly in want of such principles today.

We have had none since 1932, it appears. The country got off the beam then, and we must now hit the sawdust trail back to the 1920's when Republican "morality" was in full flower.

That is "the road to hope," according to one of the GOP Big Brains, Congressman Joe Martin, speaking over a nation-wide radio network on January 19. Here is Republican gospel according to Congressman Joe, and he should know, for with Senator Taft he really runs the party-for

Joe Pew and the boys in the back room. "Let us recognize there are farmers in America," says Martin magnanimously, "and they have the right to get along."

How? No answer.

"There are working men and women in America," he adds, evidently somewhat surprised, "and they have the right to get along." How? No Answer.

The congressman recognizes with equal generosity the existence of white collar workers and then remarks, really warming up, "Let us recognize there is such a thing as management—and a highly skilled calling it is-and managers have a right to live."

Not just the right to get along, but the right to live, mind you. And what can be done to help management solve its problems during readjustment and reconversion? Silence.

"We want more people to have more money."

Excellent, but how? Evidently by opposing higher wages and fighting price support for farmers, to judge from Republican votes in the Congress.

"We want that money to buy more of the good things of life." How? By knocking off price ceilings and allowing a wild inflation, which is the Republican line when these matters come to a vote in the House and Senate.

"And finally," says Congressman Joe, "let us come right out and recognize that there are some things that are right, some things that are wrong, and there is such a force as a moral principle."-The Democrat.

REA PLANS GREAT SERVICE EXPANSION PROGRAM IN AREA

With headquarters at Roby, Midwest Electric Cooperative, Inc., which serves Jones, Scurry, Fisher, Nolan, Mitchell, Borden and Stonewall Counties, is pushing construction of rural power lines as rapidly as possible with funds allocated.

So reports John Stavely of Fluvanna, Midwest president, in a statement to The Herald. Mr. Stavely, however, expresses concern over a recent announcement that the Rural the comradeship that exists among Electrification Administration is unable to meet all of its pending loan applications authorized for the cur-

Midwest Electric Cooperative, Inc., Stavely says, has already received approval of construction loans totaling \$178,000 from the current fiscal born at 8:30 p. m., February 19. year's REA loan fund. This total Grandparents are Mr. and Mrs. W. fund of \$178,000 will make possible the construction of 149 miles of Mrs. C. L. Thurman of Corinth. distribution lines to serve as estimated 475 consumers.

"We estimate that the Midwest can extend electric service to 2,500 rural consumers in Fisher, Scurry, Nolan, Jones, Mitchell, Borden and Stonewall Counties, in addition to 1,400 now served, and those who will be reached by new lines for which loans have been allotted," Stavely said.

"We have met all interest and principal payments on our REA loans as they have come due, and have vance of due dates. We feel that that record entitles us to further government credit in order that we electrification job remaining to be done in this area."

As of last July 1, REA Administhat 273,102 farms in Texas were still without electric service. Up to December 7 REA had allotted loans Johnson, Route 1. totaling \$9.181,400 to Texas bor- FOR SALE-Large trailer with four FOUR-ROOM HOUSE for sale in NEW WALL PAPER will add gaieyear's loan funds. COMMENTS, ET CETERA

Over a million men reenlisted in the armed forces during the month of January. So it proves that the army, navy, marines and air force

future does not look too bright, past a hundred and was a milk with all the strikes, high prices and drinker who milked his cows in an slim wages. We can't blame the boys for going back into service.

Ickes to be a "chronic grouch." It was good riddance of bad rubbish their own humble way. Yep, we got when President Truman accepted his resignation. Ickes is first one party imagine if he were to come to Texas he would join the Texas Regulars.

Industrialists' strikes should be resented more so by the American people than labor strikes. After all the big boys get fat while the little boys get lean. Why raise the price of steel when the big boys won't open their books to fact finding boards? The reason: Their big profits would shock the world. The farmers should all strike and watch the industrialists come down out of that tree top.

It looks like once again that the Texas governor's race will be full to the brim with candidates. Senator Pappy is even grinning toward the Texas capitol. He should make his first speech in Houston and under the banner of the Texas Regulars.

Some "thumb twiddling" law makers have "hatched" up a scheme to make all dairymen and milk handlers erect barns according to their specifications, with concrete floors, screened in barns, and the Lord only knows what else. It is very essential to be sanitary but to think of a few "birds" who pretend to represent the people and in most cases know nothing about cows, in fact some would not know but what the cow gives

milk out of one side of the udder and sweet milk from the otherbut still they tell us "dumb citizens" now to be sanitary.

This Structure's Pate in the Hands of Hamlin Voters!

Elementary School Building that will be built in North Hamlin if citizens of the city approve the Here is a preview of the propose 'ection. This is the architect's drawing of a "plain vanilla" building that would replace the issuance of the \$125,000 bonds in Sau. ancient bat-infested edifice that has withstood useage of Hamlin children since 1906. A plan has been worked out under which the school tax rate can catually be reduced and all bond retirement and maintennce expenses cared for. Don't forget to go to the polls Saturday and do your part toward cinching this building for your children and those of the coming years. Voting will be done at the Hamlin High School building.

THE HAMLIN HERALD

VOLUME 41

HAMLIN, JONES COUNTY, TEXAS, FRIDAY, FEBRUARY 22, 1946

Lions and Rotarians Back Hospital Sales

CIVIC GROUPS TO CONTEST FOR MEMBERSHIP LEAD-BANK DEPOSITS STILL CLIMB

Last week the total deposits for the Hamlin Memorial Hospital Association were \$5,005 and this week, the total has gone well over the \$7,000 mark. Not so bad for February! And still there is one more week of the month left for additional memberships to come in. They are being left every day at the F. & M. National Bank. Blanks with official checks attached may be had at the Bank, Bryant-Link Company, Terrell Food Store, Wilcox Produce House, F. B. Moore Grain, D. M. White's office, and both the Rotary and Lions Clubs have gone into a campaign to "button-hole" fellows who have not signed up.

The hospital directors met Sunday afternoon and authorized a partial payment plan for membership, provided it starts at \$10.00 or more and is completed before a contract for the first building unit is let. However, since there is no risk, why not put up the \$50.00 at once and save work and trouble.

Directors of the hospital association issued the following statement for The Herald:

People are sold on this hospital plan for this area of communities stretching out miles and miles in all directions from Hamlin. This is one enterprise that is unlimited, and boundaries are not known.

This week we have memberships from Plainview, Texas; Midland, Texas; Cushing, Oklahoma; and Stamford, Texas.

Some people, however, say, "We are for the hospital and will come in later," which means they want the other fellow to be brave enough to put up his money while they wait and see. There are easily 2,000 families who should be getting doctors' care and hospitalization in Hamlin, nearer their homes, but who are compelled to go elsewhere and take what is available and pay what is asked. If you like that don't try to

See HOSPITAL-Page Six

Goal About Reached in Boy-Girl Scout Drive

City-wide campaign to raise funds for Hamlin Boy Scouts and Hamlin Camp Fire Girls is scheduled to close this week-end, with every indication that the town will make its \$1,200

So declare Lions Club officials through Art Carmichael, club president, who say only a small part of the town remains to be worked. Through Wednesday almost \$1,000 had been raised in the campaign.

Citizens of the town who might have been missed in the Boy Scout and Camp Fire Girls drive are urged to mail their donations, at once, ific. He is the brother of Mrs. Jack to Hamlin Lions Club.

LEGION BUYS THEM

be available to the citizens of Hamlin area and Jones County free of charge under the current community service project, Keefer Patterson Post No. 146, of Hamlin, states.

WHEEL CHAIRS FOR **USE BY NEEEDY TO BE LEGION PROJECT**

can Legion Post No. 146, it was announced this week, in cooperation with the American Legion, will at 10:00 A. M. place wheel chairs in Hamlin.

Such chairs will be so located that all residents, both town and rural areas, will be quickly and conveni-

So state oe Culbertson, post commander, and Fred Smith, adjutant. Chair and crutches for persons who need them will be located at the City Hall.

Legion officials say the hospital equipment is for the free temporary use of residents of Jones Countyexcept for the cost of transportation.

Wheel chairs will also be placed at Anson, under the auspices of the Anson-Jones Post No. 72.

Legion officials are not making a P. M. request for donations, as neither the representatives nor the American be carried in next week's Herald. Legion organization will accept donations of any kind.

The needed hospital equipment, it s pointed out, is paid for by commissions derived from your purchase of Capper's Farmer, Southern Agriculturist and Breeder's Gazette.

Extra hospital equipment, like chairs and crutches, is often needed in this trade zone, and the local American Legion post intends to make such equipment available at

POST-WAR HAMLIN C. OF C. GATHERING

Community spirit was at a new level Tuesday evening when the first full size membership banquet since 1942 was staged by the Hamlin Chamber of Commerce in the basement of the First Methodist Church. About 200 people were present for the affair.

Under the toastmastering of Haskell W. Carter, retiring president of Friday, March 1. Judging will begin the civic organization, a well rounded program of entertainment was enjoyed. Ladies of the Methodist Church Woman's Society of Christian Service served the dinner.

> New president of the Chamber of commerce for the coming year, O. D. Roland, was presented by Carter, following introduction of directors of the organization.

New directors are B. M. Brundage, Clyde Angel, Claude Lancaster, Fred Smith and F. B. Moore. Hold-over directors are R. H. McCurdy, I. R. Witt, Frank Waggoner, John D. Ferguson, Tate May and J. B. Terrell.

Fun for the evening was furnished by Cecil M. Hunter of Amarillo, who gave the crowd 20 minutes of merry mix-up. He had been booked as Professor Algonquin Winterbottom.

Former Rotary district governor Cal Farley of Amarillo, operator of Boys' Ranch for underprivileged boys near Amarillo, spoke on the operation of the institution that is doing so much for delinquent youth of the Southwest. He was presentd by

The banquet opened with singing by the group fo "The More We Get Together" and "America, the Beautiful," led by Lester Morton, who Mrs. Ted Russell at the piano.

The local congregation has been without a pastor since October.

BALLOTING TO TAKE PLACE AT HIGH SCHOOL BUILDING ALL DAY SATURDAY

Saturday will be a red letter day in Hamlin history, for it marks the time for the town's \$125,000 gram-

Through Wednesday there was apparently no opposition to the bond ssue, which means that a thumping good vote should be recorded. Ballots in the school bond election

will be cast at Hamlin High School, and voting hours will be from 8:00 a. m. to 7:00 p. m. Saturday.

The new bond issue will require no additional raise in taxation, Hamin voters learned last week.

The new bond issue, if approved, would, in fact, reduce the town's from the south and east lines of \$1.25 on the \$100 property valuation, by refunding of old bonds and In the Truby area, the Alder Oil extending payments over a long period of years.

As proposed in the bond issue, 50 cents of present taxes collected would go for maintenance and 75 cents for oond retirement purposes.

Since the old school structure was erected in 1906, new plans call for constructing the building east of the present structure and using all old materials from the ancient building new standing.

Citizens are considerably interested in the proposal to use the old building site for a school playground.

Present building plans call for laying of the foundation for the new building and foundation by the time South of Lueders near the Shack- the current school session is over, elford County line Primo Oil Com- then starting actual erection of the pany No. 7 Martin was estimated new edifice immediately after com-

day evening at 8:00 o'clock.

A delightful menu of delicious foods of Valentine motif and menu of Hamlin. name was served to the group.

Joe Clements, toastmaster, introduced the program for the evening. During the meal Mrs. L. B. Baker rendered several piano numbers.

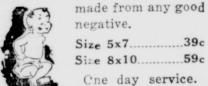

Frankie Sue Madden gave a reading, "Seventeen," and as an encore "Jennie Kissed Me." Elaine Jones Kite favored the group with two vocal solos, "Some Sunday Morning" and "Let It Snow, Let It Snow, Let It Snow."

Guest speaker of the evening was Warren C. Hultgren, Hardin-Simmons University student.

To conclude the program, the entire group sang a chorus of "Love's Old Sweet Song."

A man may fall into a thousand right and his intelligence unclouded, ished the background for the table he will issue from them all without | dishonor .- Robert L. Stevenson.

PAY CASH AND PAY LESS!

Hamlin, Texas

Telephone 51

WHAT WOULD IT BEVALUED AT?

Certainly no monetary value could be placed on the value of a close-at-hand hospital when you or your family needed immediate skilled hospital care—especially when a loved one's life is involved—but just stop and consider the savings in time, travel expenses, hotel bills, meals away from home. Even at regular hospital rates, you could more than save the cost of a membership in Hamlin Memorial Hospital in just one trip to a distant hospital! But with a membership in your very own hospital, you may secure hospitalization at greatly reduced rates. Your neighbors are joining—have you? If not, turn in your membership this week, and let's get the institution going up. BE HOSPITAL-SURE!

The Hospital Plan

THE BUILDING AND EQUIPMENT

Each family may pay a \$50.00 fee for a Life Time Membership in the Hamlin Memorial Hospital Association. From this source the hospital will be built and equipped. All member families in the Hospital Association will enjoy many extra advantages in costs at the Hospital, including unlimited attention of doctors on the staff, medical supplies, nursing care and room costs, all averaging in most cases about one-half what is usually paid in private hospitals. Non-member persons would be admitted with charges as in private hospitals.

THE DOCTORS' SERVICE

To receive the fullest benefits the member families will be privileged to provide for doctors' attention in the Hospital by paying a small annual fee at the beginning of each fiscal year. (This phase will not be called for until the Hospital is opened for service). The medical fees used in other hospitals of this nature are as follows: One person in family, \$12; two, \$18; three, \$22; four, \$25. Any dependent would be about \$6. These reasonable amounts pay for all doctors may need to do for each and all members of the family for one full year. This is a great saving and advantage in many ways to members. Non-member persons would be served as in any private hospital, at the customary prices.

HOSPITAL CONTROLLED BY DIRECTORS

The charter for the Hamlin Memorial Hospital has named in it nine directors to serve the first year of the Association, after which the membership, in their annual meeting, will elect them (three each year). The directors represent the people in all matters, as to funds, property and making policies for operating the Hospital.

The directors will secure the services of a competent medical doctor who will be chief of staff. He will be privileged to recommend additional doctors and such medical help as he deems best to give full and complete service.

NO RISK TO RUN

The Hospital is to be built on a CASH basis and operated on a cash basis, unless it be in an unusual emergency case.

Subscribe Your Family's Membership in the Hamlin Memorial Hospital Today...

Fill out the application blank below, pin your check to it, and hand it or mail it to any member of the Board of Directors, or to

BOWEN POPE. Secretary-Manager,

Brother, that night was one time the Navy was surpassed by the marines. He took that capsule and let it trickle. He was too slow in spitting it out. In about 30 seconds, his feet started kicking the top of the train-his feet going like triple sledge hammers. His tongue was going even faster and the profanity came out in strings about a mile long. But I don' believe that will go on the records against the navy. Because that pepper kindo' being hot was to his cuss words like jet propulsion is to a plane-it speeds it up and of course, jet pro-

> the marines the rest of the trip. "A little ways out of Needles, California, just as we came into Arizona, one guy hollered, 'My God, look at that!' We all looked out the window. All we saw was a blinding flash of sun; then we saw what was refecting the sun. It was airplanes -fightrs, bombers, transports, etc., all makes and models. It looked like the whole air force out there. For about five miles all we saw was airplanes. It was just like a grave yard -the planes being their own crosses. They were being decommissioned; many were already torn down. But even these were still yelling their defiance to the powers of dictatorship. It was a very sad sight to see all the planes stripped of their wings, motors, wheels, etc. Yet right there we saw why Germany and Japan were licked.

pulsion is a new thing. Oh, yeah, for

some reason, my pal stayed clear of

"By this time we began to get tired of the continuous riding. We came through Arizona, Mexico, Kansas, Colorado and into Missouri. There we crossed the families Missis sippi River. It was a very beautiful tht. Water was flowing in the center and was frozen along the banks. Then we came into Illinois. We stayed all night in Chicago. We saw the town, and contrary to the saying, people were and are quite friendly up here in the North. Then the next morning we boarded the train, came through part of Iowa, Pennsylvania, and into New York. We came into Buffalo; then we boarded a bus and came on to Geneva and into Sampson. As you noticed I skipped more than I put down. It would take up all the paper. So hoping this will make the paper, and I will write again and tell about New York and the work going on at the lospital. Pardon all the mistakes, as I haven't much time and must write fast and furiously. Well, give all the people my best regards.

"P. S. to trip: When we left, we let out a holler that was 'heard

around the world.' We were getting away from California. By the time we got to Colorado, it was down to a college roar. In Missouri, it was a whisper. In Illinois, it was nothing. plained. "He's in my class at By the time we got to Sampson it was a holler again, but this time venting the spread of communica- Train" is an appropriate title for the had anything for a cough. Up pops to go back, because, brother, when above and then go where it's zero and 15 degrets below, it is cold! It doesn't make any difference whether it is damp, dry or wet climate, 15 degrees below is cold in any language especially mine. If I ever get out of the North, the only way I'll ever get here again is by going too far south. Well, gotta end this.

"P. S. Have received a few copies of The Herald, and believe me, I really enjoyed them. It is really good to get to read a home town paper.

H-SU PREXY TELLS LIONS WAR BRINGS **CONSTRUCTIVE END**

"Despite the fact we are weary uel Smiles. general, further clarifies, in an sessor-collector, this week urges all of hearing about World War II, we constructive things come out of war," Dr. R. N. Richardson, presi-Abilene, told Hamlin Lions at their Tuesday noon luncheon.

"Great ideals," Dr. Richardson continued, "and great ideas emerge from great struggles-such as liberty, tolerance and freedom.

"Young nations, relatively poor, like Germany, Italy, and Japan, become imbued with the philosophy of 'more room' and with skilled workmen waged a war that was unique in many respects.

"World War II was unique in the number of men involved, strategy required, dramatic changes that were taken and the fierceness of fighting.

"The future looks pessimistic, but for men with hope there will be many baffling problems to be met . . We must have faith in each other; we must not take a fatalistic attitude and fall into a rut by thinking that we've always had wars and always will."

R. K. Whitfield was installed as a new club member and Bill Burnett was reinstated as a member, with Ted Russell presiding.

Guests included Hugh Trussell, new teacher and coach at Hamlin Elementary School, W. F. Martin, and J. B. Davenport of San Angelo.

Ted Russell presented a plan of challenge extended by the Rotary Club in selling of memberships in the Hamlin Memorial Hospital Association. Lions Club members accepted the challenge, with the losers to entertain the winners.

HAMLIN HOSPITAL

(concluded from page one)

If you want to better your family health welfare, this is the best opportunity you will ever have.

At the rate we are going now in accumulating funds for a building, it will be about six months before we achieve the goal of \$50,000.

If you come on and help, it should not take longer than April 1 or May 1 and then a building will be gotten underway. A substantial modern hospital can be opened in Hamlin before the end of 1946 if the people stop "waiting" and pitch in to help it get going. The directors cannot build on doubters, hesitators, and obstructionists. What they want are families who have faith in what other communities are doing so well, faith in honest effort, and attainable possibilities.

Here Are New Members.

Billy J. Bryant, Hamlin bank director, whose home is in Stamford; Sam Baize, livestock dealer, Stamford; Ed Bailey, farmer, 1512 W. 11th Street, Plainview, Texas; Fed H. Britton, stockman; Medford F. Carter, farmer; W. J. Cheshier, farmer: William C. Eoff, farmer;

JONES COUNTY TO SHARE IN FUND TO **RETIRE BOND LOAD**

Jones County, as one of 16 Central West Texas counties, will receive \$486,305 in state aid toward retirement of county road bonds during life of the present debts, it was announced this week.

The Board of County and District Road Indebtedness at Austin says, in addition, that the state will pay its share of the interest.

A proposed state constitutional amendment, to be submitted to voters in November, freezing road users' taxes to road construction and maintenance, would not disturb the bonds now receiving state aid, the board declares.

All road bonds, it is understood, will continue to draw their present rate until retirement.

The amendment would provide that, subject to legislative appropriation, allocation and direction, all net revenues derived from taxesexcept gross production and ad valorem taxes-levied on motor fuels and lubricants and motor vehicle registration fees shall be used for the sole purpose of acquiring rights-

of-way for and constructing public readways.

Amendment provides for the administration of laws pertaining to traffic and safety; and for the payment of principal and interest on county and road district bonds or warrants voted or issued prior to January 2, 1939, and declared eligible for debt service prior to January 2, 1945.

One-fourth of the net revenue from the motor fuel tax shall be alocated to the available school fund.

It is assured, however, that each county shall never derive less revenue from motor registration fees the maximum amounts and percentages allowed to the county under the laws in effect January 1, 1945.

"Think on these things"

"IT MAKES NO DIFFERENCE!"

"It really does not make any difference what a person believes; it makes no difference what religion an individual professes, if he lives up to it. I do not believe that one fellow should criticize the of faith of another. All beliefs are equally good, and who is going to set himself up as judge of another?"

The sentiment expressed above is the classic statement of indifferentism in religion. Very often it is the greeting that a preacher receives when he calls at a home. It is the rather proud explanation of the reason why this particular individual stands for nothing in religion.

To say that all faiths are equally true is, perhaps, to believe that they are all equally false.

IS INDIFFERENCE TO BELIEF THE PROPER ATTITUDE?

Logically, the indifferentist cannot consider this question. If he answers either "Yes" or "No," he must surrender his position. "It makes no difference what a man believes." Does it make any difference whether I believe this statement or not? The indifferentist must paradoxically maintain that it does!

Does it make any difference in political affairs whether men believe in democracy or totalitarianism? Does it make any difference in economic affairs whether we believe in government spending, in a balance of trade, in paying the national debt, etc.? Does it make any difference in social affairs whether races are given equal rights or whether men may be sold as chattel? Does it matter in scientific circles what men do with atomic energy?

Does it make any difference which way a man thinks is the right way out of a burning building, a sinking ship, a falling plane or a crashing automobile? Does it make any difference whether I believe that I am a mere brother of the brute or a son of God? Whether my will is bound or free? Whether there is a life beyond the grave or that death brings eternal night? Whether my desires are to be given free rein or to be controlled? Does it make any difference what the husband believes about his wife? (Remember Othello). Does it matter what one member of the family believes about another?

Next week we shall discuss: "WHY INDIFFERENTISM SHOULD BE CONDEMNED."

Attend the Church of Christ. Bring the Whole Family!

The telephone company reports to those waiting for service

The telephone company is anxious to bring you the service you've ordered.

Telephone factories are working hard at the tremendous task of catching up with America's backed-up demand for telephone service. (More than 2,000,000 people are waiting throughout the nation.)

In December factories were making telephone instruments at the rate of 230,000 a month. By January 1, in the five states served by this company, about 60,000 of these newly manufactured instruments already had been installed.

But making and installing telephone instruments is only a part of the job of providing service for everybody. We are planning, making, and installing the great volume of switchboards, dial equipment, cable, wire-and even buildings-necessary to make those telephones work.

By the year's end, enough central office equipment to connect 40,000 additional telephones had been made and installed in this company's territory. This is the time-taking part of the job-the apparatus is complicated to make and complicated to install. Equipment for 10,000 telephones must be wired to handle nearly 50 million possible telephone connections. We're pushing this complex job as fast as we can; it will take time, but we're doing our best to take as little time as possible.

Miles and miles of cable to connect telephones with central offices have been put in since the end of the war; and in the last few weeks, by reason of increased supplies of men and material, the rate of installation has doubled.

We have made progress-and every month during the coming year our progress will be still more rapid. Everyone will get service in his proper turn. Your service once ordered, you can be sure that your application is before us; and as soon as the equipment is available to connect your telephone, we will notify you and arrange details for providing your

The American Legion plans to place wheel chairs in Anson and Hamlin, Texas, and so located that all residents, both in town and rural areas, will be quickly and conveniently served. This hospital equipment is for the free temporary use of residents of ones County, except for cost of trans-

This is not a request for donations, as niether the representatives or the American Legion organization will accept donations of any kind. This hospital equipment is paid for by commissions derived from your purchase of Capper's Farmer, Southern Agriculturist and Breeder's Gazette.

Extra hospital equipment is often much needed in Jones County and will give service greatly appreciated by all. Your purchase of these papers gives you FULL VALUE for your money and at the same time helps assure your community of getting this fine equipment.

Pictured above is one of the models of wheel chairs which will be available to the citizens of this county free of charge under the current community service project.

AmericanLegion

Keefer-Patterson Post No. 146, Hamlin Anson-Jones Post No. 72, Anson

Men Do Have It, Too!

At a dinner party one evening in London, American-born Lady Astor became annoyed when the men present embarked on a discussion of the vanity of women. "I think men are infinitely more vain than women," she contended compromisingly.

A burst of laughter greeted this

firmly. "If you'll look about you, most inteligent man ir this room has the most ridiculous knot in his tie!'

She had no sooner made this charge than every man at the table reached for his tie. With a smile of triumph and a patronizing "See," Lady Astor resumed eating."

The Gintz Workshop, Nacogdoches, Texas, supplies the nation with mill ends and wood wastes.

TEXAS IN GRIP OF **CRIME WAVE SAYS** SAFETY DIRECTOR

Texas is definitely in the grip of a crime wave, Director Homer Gar-"I'll prove it to you," she said rison of the State Department of Public Safety informs The Herald.

The crime rate in Texas cities and towns, Garrison said, jumped 18 per cent in 1945-and this increase was superimposed upon a substantial increase in the previous year.

Forty-six police departments, representing 1,873,000 inhabitants, last year reported a total of 46,898 major offenses to the Department of Public Safety.

That total included 284 murders, children's wooden toys, made from a gain of 9.65 per cent; 115 homicides, up 6.48 per cent; 234 rape cases, a gain of 23.16 per cent; 972 robberies, up 20.30 per cent; 10,-826 burglaries, a gain of 22.54 per cent. 28,154 thefts, a 15.93 per cent

Area Soldier's British Wife and Son on Way

Hamlin friends learned Tuesday that the British bride and son of Elmer W. Featherstone of Aspermont will sail from Surrey, England,

Elmer's bride is Jose L. Featherstone, 35. The mother and son will be part of a group of 476 brides and children of American service men to sail on the ship Argentina.

increase; and 6,313 automobile thefts, up 20.11 per cent.

The increase in rural crime will be even greater than that in cities, Garrison concluded.

HAMLIN, TEXAS

New Type of Cotton Testing Machine Will Prove of Great Value

A new type of cotton testing machine developed in the laboratory which may prove invaluable to the cotton industry, Hamlin area farmers area informed, has been anmounced at Texas Tech College, Lub-

New testing machine is being announced by Geo rge W. Pfeiffenber- ate control action. High-lighting the ger, who is in charge of research state-wide control campaign is the work for the Chicopee Manufacturing observance throughout the State of Company, in the spinning laboratory National Social Hygiene Day on of the textile department of Texas Wednesday, February 6. Technological College.

The new machine, it is explained, which will test cotton for fineness in 20 minutes whereas the process heretofore has required four hours, is inexpensive and can be operated by relatively inexperienced hands.

Pfeiffenberger said the governent had been interested in the machine for its own laboratories. The new process will be called the Texas Tech Cotton Testing Method. Texas Tech was selected out of 15 colleges by the Chicopee Manufacturing Company for research work because of the excellent equipment available and the cooperation of Tech College officials.

Farmers of West Texas have been promoted to death about growing longer staple cotton," Pfeiffenberger says. He is of the opinion that there is little use in the farmer grow-

VENEREAL DISEASE PROBLEM IN TEXAS ONE OF BIG WORRY

Strong warning to Hamlin area people that venereal diseases may increase far beyond wartime levels during the next few years has reemphasized the need for immedi-

Cooperation from every social level has led leaders in civic groups, social agencies, youth organizations, churches, parent-teacher associations, labor, management and health officials to participate in the observance of this day.

Interest in the campaign against syphilis and gonorrhea has risen to new heights during the past few

Venereal disease control was an urgent and vital factor in fighting power and working ability. The observance of National Social Hygiene Day is part of a program including general education to arouse the interest and concern of communities in stamping out the venereal diseases which kill 100,000 Americans

The national observance is sponsored each year by the American Social Hygiene Association, a voluntary health organization which works in close cooperation with the Army, Navy, U. S. Public Health Service, Office of Education and other units of the Federal Government, and with similar state and local agencies in promoting the con-Let the Lydick-Hooks Roofing | trol and prevention of venereal dis-Company make your estimate | eases.

ing longer staple cotton as long as cotton is marketed on the basis of spinning quality.

ELEMENTARY, my dear Watson!

Here's a problem for you, Watson. What living cost has DECREASED while nearly all other costs have gone right on rising?

My dear Watson, the answer is at your finger-tip. What else gives you twice as much for your money as it did 15 years ago? What else is ready day or night, winter or summer, to lighten your tasks and make life more comfortable for you? What else gives you so much service for just a few pennies a day? What else, my dear Watson, but Electric Service?

Elementary, my dear Watson. Electric Servicedependable and cheap-is the result of hard work, private initiative and experience on the part of the men and women of your electric company-under sound, steady business management.

The Hamlin Herald

Published Every Friday at The Hamlin Herald Building, Hamlin, Jones County, Texas.

Publisher Willard Jones. Beryle Jo Travis.....Society Editor Ralph Gillispie.....Apprentice

SUBSCRIPTION RATES

In Jones, Fisher, Nolan, Taylor, Shackelford, Haskell and Stonewall Counties:

\$1.50 One Year, in advance... Six Months, in advance 85 cents

Elsewhere: \$2.00 One Year, in advance Six Months, in advance

Entered at the Post Office at Hamlin, Texas, for transmission through the mails as Second Class Matter, according to an Act of Congress, March 3, 1879.

Any erroneous reflection upon the character of any person or firm appearing in these columns will be gladly and promptly corrected upon being brought to the attention of the management.

GEARLESS CARS ARE ON THE WAY

If you think automobile engineering has fallen behind because of our war-time years, you will be very pleasantly surprised, because the dream of a truly gearless car, without transmission and differential, is

already a proven reality. A Ford engineer, for instance, Ray Russell, has built over 100 of the gearless vehicles, in which the engine's crankshaft is connected with pumps and oil under pressure drives all four wheels through individual hydraulic

Now that we have advanced so far in engineering that we can look forward to a vehicle without gearshift, transmission or differential, we hope the day is not far distant when such vehicles can be sealed at the factory and operated without benefit of fuel or oils of any kind. In other words, if we can utilize something of a perpetual motion machine, and have tires that never go flat, the automobile and pick-up will indeed prove an American luxury-and a joy to behold!

PROFIT IN COTTON WITH CEILINGS

Considerable agitation has been heard from government circles and reflected in the thinking and talking of cotton growers concerning proposed ceiling prices for raw cotton. Hamlin area producers are intensely interested in the outcome of present conferences in Washington on the subject.

Whether ceilings are invoked that would keep the price of raw cotton below a certain figure or not, the cotton producers of the country must put into practice methods of production of cotton at less cost in order to protect their market from foreign competition.

The cotton market of today is not measured by metes and bounds nor by old style transportation. The cotton producer must compete with the growers of Brazil, Central America, Egypt, China and other cotton producing countries.

The ingenuity of cotton farmers will find a practical way to produce cotton of higher quality at lower figures than was possible years ago. The ceiling price will not be a permanent bugaboo to the "heady" grower.

NEW SCHOOL URGENT FOR CHILDREN

It will be up to Hamlin people Saturday to mark up a record vote in the school district's \$125,000 bond election, purpose of which will be to secure sufficient funds to construct a brand new grammar school building, something worthy of the present and a monument of dedication to Hamlin's

Early this week there appeared no opposition to the Hamlin bond election, and since this is the case there is no reason why the issue should be defeated.

Teaching is the mother profession of the earth, and the school room, as the hand maiden of learning, forms the most fundamental of foundations for molding character and of deciding the destiny of Hamlin boys and girls.

Since the days of the little red school house and the rural one- and two-teacher schools are definitely over, we will have to grasp every opportunity afforded us in order that our children may be mentally equipped to face the world of tomorrow unafraid. Only through proper educational facilities can we build for a greater, richer and nobler life in this land of ours that has indeed been purchased with a price. Our heritage shall lead us to remain a world leader in education if each community and city will only cooperate on a 100 per cent basis.

WHAT CONTEMPORARIES ARE SAYING

PUMPKIN HEADS

If there is anything funnier than a Republican party platform, including the latest version so hastily buried amid such gales of laughter, it is a GOP nabob trying to be a man of the people and beating his breast for "moral principles."

It may be hard to believe, but you can take the Republicans' word for it-if you want to-that the American people are sadly in want of such principles today.

We have had none since 1932, it appears. The country got off the beam then, and we must now hit the sawdust trail back to the 1920's when Republican "morality" was in full flower.

That is "the road to hope," according to one of the GOP Big Brains, Congressman Joe Martin, speaking over a nation-wide radio network on January 19. Here is Republican gospel according to Congressman Joe, and he should know, for with Senator Taft he really runs the party-for Joe Pew and the boys in the back room.

"Let us recognize there are farmers in America," says Martin magnanimously, "and they have the right to get along."

How? No answer. "There are working men and women in America," he adds, evidently somewhat surprised, "and they have the right to get along."

How? No Answer. The congressman recognizes with equal generosity the existence of white collar workers and then remarks, really warming up, "Let us recognize there is such a thing as management—and a highly skilled calling it is—and managers have a right to live."

Not just the right to get along, but the right to live, mind you. And what can be done to help management solve its problems during readjustment and reconversion? Silence.

"We want more people to have more money."

Excellent, but how? Evidently by opposing higher wages and fighting price support for farmers, to judge from Republican votes in the Congress. "We want that money to buy more of the good things of life."

which is the Republican line when these matters come to a vote in the House and Senate. "And finally," says Congressman Joe, "let us come right out and

How? By knocking off price ceilings and allowing a wild inflation,

recognize that there are some things that are right, some things that are wrong, and there is such a force as a moral principle."-The Democrat.

Love is never lost. If not reciprocated it will flow back and soften

Willys Jeep on Display At H. B. Martin Station

H. B. Martin at Martin's Magnolia Service Station has a brand new Willys Jeep, the universal and outstanding peace car, on display this week at his station.

Martin is already taking orders for the Jeep, which was, the world over, the outstanding war car.

The Willys Jeeps will negotiate any type of road, plow and bed, will operate saws, augers, pumps and windmills, and is termed the "all day working Jeep."

Martin invites people of the Hamlin area to stop by his service station and inspect the famous vehicle for which he is local agent.

CREDIT UNIT AREA MEET AT STAMFORD

A number of Hamlin members of the Stamford Production Credit Association attended the annual meeting of the association in Stamford February 15. A total attendance of 1,581 was recorded from the eight counties in the association territory. This territory is made up of Jones, Shackelford, Haskell, Knox, Stonewall, Dickens, eKnt and King Counties. The association has a total of 1.482 members, and although the attendance at this meeting was made up of members, their wives and visitors, there was over 50 per cent representation in active members.

C. G. Burson of Haskell was reelected as director and J. Spurgeon Reeves of Hawley was elected di-

rector to succeed Lasater Hensley of King County.

Taylor Owens of Anson was elected member of the nominating committee. Attendance prizes were given, and one of these was drawn by Louis C. Stinnett of Hamlin.

The central office is at Stamford and there is a field office at Anson. Mr. Pumphrey reports that the association made loans during 1945 to- er. taling \$2,762,587.00.

REA PLANS GREAT **SERVICE EXPANSION** PROGRAM IN AREA

With headquarters at Roby, Midwest Electric Cooperative, Inc., which serves Jones, Scurry, Fisher, Nolan, Mitchell, Borden and Stonewall Counties, is pushing construction of rural power lines as rapidly as possible with funds allocated.

So reports John Stavely of Fluvanna, Midwest president, in a statement to The Herald. Mr. Stavely, however, expresses concern over a recent announcement that the Rural

Midwest Electric Cooperative, Inc., Stavely says, has already received approval of construction loans totaling \$178,000 from the current fiscal year's REA loan fund. This total fund of \$178,000 will make possible the construction of 149 miles of distribution lines to serve as estimated 475 consumers.

"We estimate that the Midwest can extend electric service to 2,500 rural consumers in Fisher, Scurry, Nolan, Jones, Mitchell, Borden and Stonewall Counties, in addition to 1,400 now served, and those who will be reached by new lines for which loans have been allotted," Stavely said.

"We have met all interest and efits already created in behalf of principal payments on our REA loans as they have come due, and have paid \$45,464.22 on principal in advance of due dates. We feel that that record entitles us to further government credit in order that we may complete our part of the rural electrification job remaining to be done in this area."

As of last July 1, REA Administrator Claude R. Wickard estimated that 273,102 farms in Texas were still without electric service. Up to December 7 REA had allotted loans year's loan funds. In addition, applications for loans amounting to Hamlin. \$18,334,500 were pending from the TWO ALADDIN Lamps-De Lastate.

COMMENTS, ET CETERA

Over a million men reenlisted in of January. So it proves that the Mr. and Mrs. Howard Darden and army, navy, marines and air force future does not look too bright, past a hundred and was a milk with all the strikes, high prices and drinker who milked his cows in an slim wages. We can't blame the boys for going back into service.

Personally, we believe old Harold Ickes to be a "chronic grouch." It was good riddance of bad rubbish when President Truman accepted his a lot of men in Washington and in resignation. Ickes is first one party member and then the other. We imagine if he were to come to Texas he would join the Texas Regulars.

Industrialists' strikes should be resented more so by the American people than labor strikes. After all the big boys get fat while the little boys get lean. Why raise the price of steel when the big boys won't open their books to fact finding boards? The reason: Their big profits would shock the world. The farmers should all strike and watch the industrialists come down out of that tree top.

It looks like once again that the Texas governor's race will be full to the brim with candidates. Senator Pappy is even grinning toward the Texas capitol. He should make his first speech in Houston and under the banner of the Texas Regulars.

Some "thumb twiddling" law makers have "hatched" up a scheme to make all dairymen and milk handlers erect barns according to their speciications, with concrete floors, creened in barns, and the Lord only knows what else. It is very essential "birds" who pretend to represent the people and in most cases know nothto be sanitary but to think of a few ng about cows, in fact some would

but still they tell us "dumb citizens now to be sanitary.

We knew one man who lived to be

open barbed wire pen and never washed the cow's udder, but in his day they never had any "hair brain" law makers to pass a law prohibiting folks from being sanitary in their own humble way. Yep, we go Austin who think if they can't hatch up some new law to force on the people that they just "ain't done nothing" yet. Baloney, we calls it -A-Darden-O-Gram.
